Testimonials

A & V
March 2023 ★★★★★

Another enjoyable stay at Oak Cottage. Lovely canal walks and river watching. This our 12th visit and each one has been excellent!

Explore

- Wildlife**
Alwyn and Olive share a deep passion for the countryside, cherishing its rich habitat. The riverbank, adorned with lush grasses and vibrant wildflowers, is a haven for wildlife—from buzzing bees and fluttering butterflies to the delicate dance of craneflies. The Kingfisher, proudly featured in the Smithy Logo, symbolise this natural beauty. If you sit by the river, you might be lucky enough to spot one of these stunning birds or catch a glimpse of their brilliant blue flash along the water's edge.
- Riverside activities**
The varied countryside is beautiful and fun to explore. Why not get a different angle of the river and pop a Kayak in at Kingfisher View and see the river from the river! Fishing is free on the park. There is also fishing available on the Montgomeryshire Canal. Fast water fishing includes Trout and Salmon and there are Grayling, Chubb and other coarse fish.
- Walking, cycling**
The diverse countryside offers a fantastic playground for cyclists and a true paradise for walkers. The Park provides excellent access to the Montgomeryshire Canal towpath, a perfect route for walking, cycling, and a haven for dog owners looking to explore nature at a leisurely pace.
- Towns and culture**
From our convenient location, you can easily visit the surrounding market towns of Llanidloes, Welshpool, and Montgomery, and the historic towns of Machynlleth and Ludlow, with plenty of attractions, castles, reservoirs and beautiful views on the way!
- An hour away from the Welsh coast**
The Welsh coast is an hour's drive away, so you can enjoy Aberystwyth, Aberdovey or Borth, with stunning scenery en route. With convenient access to the North and Midlands, Smithy Park is handy for you to get away from it all.
